ABDULLAHI KAMALDEEN OLALEKAN

Frontend Developer

Summary

I am a passionate frontend developer with less than a year of experience who has a strong affinity for crafting elegant and responsive user interfaces and is always eager to learn. I thrive on the challenges that come with translating complex concepts into user-friendly experiences. Whether it's optimizing performance, ensuring cross-browser compatibility, or enhancing interactivity, I'm dedicated to delivering seamless solutions that exceed user expectations.

Work Experience

Front-end Developer Intern at SkailleUp- Ed-Tech Company, Lagos, Nigeria

July 2023 to November 2023

- Develop curriculum for students.
- Collaborate with designers and backend developers to implement and maintained visually appealing and functional user interfaces for the company using Vanilla JS and React.js.
- Demonstrate strong problem-solving skills, addressing technical challenges and implementing innovative solutions.
- I actively participate in code reviews and collaboration on Github.

Selected Projects

- **The Wild Aosis**

  About: The Wild Aosis is a project that emulates a real hotel website exclusively for hotel staff. It enables workers to manage bookings, register colleagues, update settings, and more. The project features a dashboard with various graphs, and it incorporates a dark mode. The backend and authentication are powered by Supabase

  Tech Stack: *Vite, HTML, CSS–Styled Components, React, React Router, React Query, React Toastify, Recharts, React Icons, React Hook Form, Date-fns, and Supabase,*
